Summary

I am a Front End Web Developer leveraging a background in special education and primary teaching to build accessible and responsive web applications. I earned a certificate in Full Stack Development from the University of Western Australia Coding Bootcamp in 2020, and developed skills in JavaScript, CSS, JQuery, Node JS, MySql, MongoDB, REACT and responsive web design. For the last 3.5 years I have worked developing an application that allows jobseekers to create video job applications and allows recruiters and businesses to manage those applications. I am known as organised and hardworking with a flair for the creative. I am very driven to ensure a positive and smooth user experience and am excited to use my skills to develop applications that solve existing problems and exceed clients' expectations.

Technical Skills

HTML, CSS, NodeJS, Javascript, JQuery, Github, Media Queries, JSON, Technical writing, React, Responsive design, Typescript, Task management, Next.js, Ignition HMI (SCADA), Microsoft Power BI

Experience

UseVerb Pty Ltd September 2020 - April 2024

Software Developer

- Front end software developer using React JS and Typescript to develop a responsive web application that used a messaging system and video application for jobseekers to apply to jobs and business to view and sort video applications.
- Proficient in React Js and Typescript - Developed various features and components that communicated with the API to display and update data to the user.
- Quality Assurance - Extensive experience in ensuring product quality through rigorous testing and evaluation processes.
- Bug Fixing and Bug Identification - Skilled in identifying, diagnosing, and resolving software bugs to enhance overall system performance. Used Trello and ClickUp to track these.
- Search Engine Optimisation (SEO) - Proficient in optimising website content to improve search engine rankings and visibility.
- Breaking down large tasks into smaller manageable subtasks
- CSS Styling - Proficient in creating visually appealing and mobile responsive user-friendly interfaces with Cascading Style Sheets.

- Production Releases - Adept at managing and executing production releases, ensuring smooth deployment of software updates and communicating updates to the rest of the team
- Code Reviews - Experienced in conducting thorough code reviews to maintain high coding standards and improve code quality.
- Change Management - Skilled in managing and adapting to changes in software development processes and technologies.
- Team Collaboration - Planning, problem solving and knowledge sharing between team members

Department of Education WA January 2015 - December 2019

Relief Teacher

- Primary and education support teacher at various schools covering different ages, abilities and for varying lengths of times showing adaptability and resourcefulness.**Class Professionals January 2012 - December 2019**

Tutor
